
Administrative Report

Clinical Practice Guidelines for Management of Sarcoma
– Series 2

May 2023

Scope of the administrative report

This administrative report refers to the development of Clinical Practice Guidelines for Management of Sarcoma (Series 2).

Appendix 2 - Conflict of interest Register	

Preamble

As the leading research organisation in sarcoma in Australia and New Zealand, the Australia and New Zealand Sarcoma Association (ANZSA) is dedicated to improving the outcome for patients with sarcoma through awareness, education, and research. ANZSA fosters effective collaborations across medical and psychosocial multidisciplinary teams (MDT), comprising specialist health professionals (including pathologists, radiologists, surgeons, radiation oncologists, medical oncologists, paediatric oncologists, and allied health) working together to identify the best management and care of patients with sarcoma and related tumours. Pivotal to this goal is the development and dissemination of clinical practice guidelines based on systematic review to evaluate evidence for best management of adult and paediatric patients with sarcoma. The previous Australian clinical practice guidelines for the management of adult onset sarcoma were published in 2013. The current guidelines development process commenced at the end of 2020 with full support from the board and the scientific advisory committee of ANZSA. The working party uses evidence-based methodologies to develop guideline recommendations in accordance with the National Health and Medical Research Council (NHMRC) standard (<https://www.nhmrc.gov.au/guidelinesforguidelines>).

Series 1 of the current guidelines was launched in July 2022 after public consultation and is publicly available on the ANZSA website at <https://www.sarcoma.org.au/pages/sarcoma-guidelines>. We expect to launch Series 2 of the guidelines in July 2023.

Responsible Organisation

ANZSA is responsible for developing and dissemination of the guidelines. ANZSA is a not for profit organisation and the operations are funded by Cancer Australia grant. Its vision is to improve early diagnosis, treatment options, outcomes, and quality of life of patients with sarcomas and related tumours through outstanding national and international, basic, translational, clinical, and supportive care research and clinical trials.

Funding

The guidelines development is solely funded by ANZSA to cover guideline development training (GRADE training and The International Guideline Credentialing and Certification (INGUIDE) Program), publication, and dissemination. There is no commercial support.

Apart from the project manager, members of the working party volunteer their time to participate in the guideline development.

Multidisciplinary working party

The management of sarcoma is complex and involves the input of a multidisciplinary team to achieve the optimal outcome. Therefore, it was decided that the working party should include experts from multidisciplinary medical speciality such as radiation oncology, medical oncology, orthopaedic surgery, surgical oncology, paediatric/adolescent young adult

oncology, pathology as well as end-users such as a general oncology, general practice, psychology, and consumer. A clinical librarian with expertise in systematic review has assisted with literature search and the systematic management software system Covidence.

A call for expression of interest with the terms of reference was sent to members of scientific advisory committee and the consumer advisory party of ANZSA in August 2020. The guideline chair and ANZSA CEO reviewed the applications to ensure the working party consists of multidisciplinary group with variation in areas of expertise in sarcoma management, geographic region, gender, and practice setting. To foster the next generation of medical specialist, advanced trainees in radiation oncology, medical oncology, surgical oncology, and orthopaedic surgery were invited to participate in the systematic review and guidelines development.

At the first guideline working party meeting in December 2020, the members discussed and voted on the theme of three broad topics (specialised sarcoma care, retroperitoneal sarcoma, paediatric/AYA sarcoma). The working party was then divided into three smaller working groups each with a topic lead. Each topic working group focused their attention on the specific topics and the agreed research questions. The smaller topic working groups worked on the systematic reviews and the initial draft recommendations before presenting to the whole working group for further feedback and discussion. Despite the relatively large size of the working party, all members worked efficiently together in their smaller topic working groups and made valuable contributions in the areas of their expertise.

Guidelines working party membership

Please see Appendix 1. Working Party Members for the full list of the Sarcoma Guidelines Working Party Members.

Consumer Involvement

A call for expression of interest with the terms of reference was sent to all consumer members of the ANZSA Consumer Advisory Party (CAP) in August 2020. The consumers are volunteers with the purpose to assist in research and academic endeavours for ANZSA. The CAP has a Terms of Reference that serves as a policy for engagement and support of consumer members. Two consumers initially accepted a role as working group members in the guideline working group.

Consumers were involved in the initial guideline development process and participated in initial discussions at end of 2020 to determine the focus of the guideline questions. They were also invited to take part any educational courses for example GRADE training and Covidence training. They were included in all communications with the opportunity to contribute at any stage. Furthermore, they were offered support in terms of further explanation and discussion of the more technical aspects of the guideline development process as needed. They are involved in the final evaluation of the guideline

recommendations and the plain English summary. Up to four consumer members have been involved in Series 2 of the guideline development.

During the public consultation period, the key sarcoma consumer advocacy groups are also individually invited to review and comment.

Declaration of conflict of interest

To ensure a guideline's recommendations are objective and unbiased all members are asked to declare their interests. The term of reference for guidelines working party clearly stated the need to declare any potential conflict of interest at the beginning of the membership and during the course of the membership should one arise. A declaration form is completed by each member at the beginning of the membership.

Throughout the guideline development, members are reminded of their obligation to consider any interest that may have arisen since the last meeting or with any agenda items. No potential competing interests have been identified that required a formal management plan. Please see Appendix 2 for the Conflict of Interest Register.

Funding

The ANZSA board approved a budget of \$27,000 for guideline development in 2020 to include training, software and project officer's salary. ANZSA has not sought any commercial funding for this guideline development.

Meetings

Each meeting is chaired by the chair of the guidelines working party and relevant members are invited to join. The agenda and relevant reading materials are provided at least one week prior to each meeting. The minutes of the meeting and follow up reading materials are provided to the working party within 2 weeks. The initial plan was to hold day-long face to face meetings to appraise the systematic review, and vote on the final evidence summary and recommendations. Due to Covid 19 pandemic, these meetings were convened as shorter virtual meetings (meeting dates to discuss draft guideline recommendations are listed below):

- 9th February 2022 – Topic 1 group meeting
- 1st March 2022 – Topic 3 group meeting
- 7th March 2022– Topic 1 group meeting
- 8th March 2023 – Topic 2 group meeting
- 15th March 2023 – Topic 3 group meeting
- 12th April 2023 – Topic 3 group meeting

In addition, the chair and the project officer meet virtually every two weeks to manage the progress of the guidelines development. The chair, Topic leads and the project manager also meet with each other and more junior members of the working party individually throughout the guideline process to provide guidance and support. Progress of the guidelines development is provided to the scientific advisory committee twice a year and board of ANZSA thrice a year.

Training for working party members

A series of educational courses were provided to the working party member to support their understanding of the systematic review and guidelines development.

GRADE Workshop, presented by Associate Prof Zachary Munn, Director JBI Adelaide GRADE Centre, Joanna Briggs Institute

Date: 24th November 2020

Attendees: Angela Hong, Denise Caruso, Jasmine Mar, Lisa Orme, Fiona Maclean, Joshua McDonough, Marianne Phillips, Smaro Lazarakis, Jeremy Lewin, Natacha Omer, Susie Bae, Elizabeth Connolly, Vivek Bhadri, Peter Lee

**Workshop recording and materials were made available to all members of the working party after the workshop*

Covidence Training Webinar

Host: Covidence Community Manager Nancy Owens

Attendees: Angela Hong, Denise Caruso, Jasmine Mar, Peter Grimison, Fiona Maclean, Anna Lawless, Marianne Phillips, Smaro Lazarakis

**Workshop recording and materials were made available to all members of the working party after the webinar*

The International Guideline Credentialing and Certification (INGUIDE) Program by the Guidelines International Network and McMaster University

Date: Self-paced learning available from 21st October 2021 onwards

Attendees: Angela Hong, Jasmine Mar, Natacha Omer, Julie Cayrol

Consensus-based recommendations

In order for working party members to appraise the evidence for each question, each is provided with:

- access to Covidence systematic management system which has all publications included in the title/abstract screening, full text screening, the Prisma diagram, the pdf of all publications that meet the inclusion criteria and the data extraction
- an excel file with evidence table, which summarises the systematic review and critical appraisal of all studies that meet the inclusion criteria
- final quality assessment (NHMRC Evidence Hierarchy, Newcastle-Ottawa Quality Assessment Form for Cohort Studies, Cochrane Collaboration's tool for assessing risk of bias for randomised trial) for each publication that meet the inclusion criteria

- a draft guideline with evidence summary, recommendations and practice points at prior to topic working party meeting

During each meeting, the chair provides an overall view of the NHMRC guidelines for guidelines development, the NHMRC grades of recommendations and the NHMRC evidence statement criteria. Each topic lead and/or main systematic reviewer then presents the summary of the systematic review including areas of weak evidence, the evidence summary, recommendations, and practice points. All members are invited to contribute, debate and vote during the meeting. The draft guidelines are revised after the meeting based on the discussion and circulated to each member of the topic working party as well as the whole guidelines working party for review and final approval. Any dissenting views are freely discussed among members until a final decision can be reached based on the best evidence available. Each recommendation and practice point are reached by majority vote provided by the working party.

Public consultation

The draft of Series 1 of the guidelines with its technical and administrative reports were released for publication consultation 13th April 2022 – 13th May 2022 (Extended to 27th May for professional bodies). ANZSA solicited comments from its members by direct email alert, social media and listing the draft guidelines on its website.

The draft the Series 2 of the guidelines will be open for public consultation from the 15th of May to the 15th of June 2023 and will follow the same process as for Series 1.

The following professional and consumer organisations have been identified as key stakeholders that will be involved in, or affected by, the implementation of the clinical recommendations of the guideline. Each organisation is individually invited to provide comments and will consider any necessary revisions after the public consultation period.

- Royal Australia and New Zealand College of Radiologists, Faculty of Radiation Oncology (RANZCR)
- Medical Oncology Group of Australia (MOGA)
- Royal Australasian College of Surgeons (RACS)
- Australia Orthopaedic Association (AOA)
- Australia and New Zealand Children Haematology Oncology Group (ANZCHOG)
- Royal Australian College of General Practitioners (RACGP)
- Sock it to Sarcoma (Consumer organisation)
- Rainbows for Kate (Consumer organisation)
- Rare Cancers Consumer Group (Consumer organisation)
- Kicking Goals for Xav (Consumer organisation)

All comments will be considered by the chair and members of the topic working party. Changes will be made to the draft guidelines when it is considered as appropriate. A public consultation summary table listing each comment resulted in a change to the guidelines, or

that the comment was considered but did not result in a change, and the reasons why it did not will be kept. A de-identified version of the public consultation summary and the changes made to the guideline as a result will be published with the final guidelines.

Appendix 1. Working Party Members as of May 2023

Title	First Name	Last Name	Country	State	Role	Representation	Role in Guideline Development Process
Dr	Susie	Bae	Australia	Victoria	Medical Oncologist	Peter MacCallum Cancer Centre (PMCC)	Working Group Member
Dr	Vivek	Bhadri	Australia	New South Wales	Adolescent Medical Oncologist	Royal Prince Alfred Hospital (RPA), Chris O'Brien Lifehouse	Working Group Member
Prof	Richard	Carey Smith	Australia	Western Australia	Orthopaedic Surgeon	Sir Charles Gairdner Hospital (SCGH)	Working Group Member
Dr	Denise	Caruso	Australia	Victoria	Chief Executive Officer	Australia and New Zealand Sarcoma Association Limited (ANZSA)	Working Group Member
Dr	Julie	Cayrol	Australia	Victoria	Paediatric and Adolescent Medical Oncologist	Royal Children's Hospital	Working Group Member
Ms	Sarah	Chan	New Zealand	Auckland	Consumer Representative	Consumer Representative	Working Group Member
Prof	Peter	Choong	Australia	Victoria	Orthopaedic Surgeon	St Vincent's Hospital Melbourne	Working Group Member
Dr	David	Coker	Australia	New South Wales	Surgical Fellow	Royal Prince Alfred Hospital (RPA)	Working Group Member
Dr	Elizabeth	Connolly	Australia	New South Wales	Medical Oncologist	Chris O'Brien Lifehouse	Working Group Member
Dr	Joanna	Connor	New Zealand	Auckland	Medical Oncologist	Auckland District Health Board	Working Group Member
A/Prof	Jayesh	Desai	Australia	Victoria	Medical Oncologist	Peter MacCallum Cancer Centre (PMCC)	Working Group Member
Ms	Natalia	Dewiyani	Australia	Victoria	Consumer Representative	Consumer Representative	Working Group Member
A/Prof	Peter	Grimison	Australia	New South Wales	Medical Oncologist	Royal Prince Alfred Hospital (RPA), Chris O'Brien Lifehouse	Working Group Member
Dr	David	Gyorki	Australia	Victoria	Surgical Oncologist	Peter MacCallum Cancer Centre (PMCC)	Working Group Member and Topic 2 Lead
Prof	Angela	Hong	Australia	New South Wales	Radiation Oncologist	Royal Prince Alfred Hospital (RPA), Chris O'Brien Lifehouse	Working Group Chair and Topic 1 Lead
Dr	Andrew	Johnston	New Zealand	Auckland	Orthopaedic Surgeon	Auckland City Hospital	Working Group Member

Dr	Anna	Lawless	Australia	New South Wales	Radiation Oncology Registrar	Chris O'Brien Lifehouse	Working Group Member
Ms	Smaro	Lazarakis	Australia	Victoria	Clinical and Research Librarian	Peter MacCallum Cancer Centre (PMCC)	Clinical and Research Librarian
Dr	Peter	Lee	Australia	New South Wales	Surgical Oncologist	Royal Prince Alfred Hospital (RPA)	Working Group Member
Dr	Jeremy	Lewin	Australia	Victoria	Adolescent Medical Oncologist	Peter MacCallum Cancer Centre (PMCC)	Working Group Member
Dr	Tracy	Lim	Australia	New South Wales	Radiation Oncology advanced trainee	Mid North Coast Cancer Centre	Working Group Member
Dr	Helen	Lo	Australia	New South Wales	Radiation Oncologist	Mid North Coast Cancer Centre	Working Group Member
Ms	Karen	Lurati	Australia		Consumer Representative	Consumer Representative	Working Group Member
A/Prof	Fiona	Maclean	Australia	New South Wales	Pathologist	Douglass Hanly Moir Pathology	Working Group Member
Ms	Jasmine	Mar	Australia	Victoria	Research Coordinator	Australia and New Zealand Sarcoma Association Limited (ANZSA)	Project Coordinator
Dr	Joshua	McDonough	Australia	South Australia	Researcher	The University of Adelaide	Working Group Member
Dr	Wayne	Nicholls	Australia	Queensland	Paediatric and Adolescent Medical Oncologist	Queensland Children's Hospital (QCH)	Working Group Member
Dr	Natacha	Omer	Australia	Queensland	Paediatric Medical Oncologist	Queensland Children's Hospital (QCH)	Working Group Member and Topic 3 Lead
Dr	Lisa	Orme	Australia	Victoria	Paediatric and Adolescent Medical Oncologist	The Royal Children's Hospital Melbourne (RCH), Peter MacCallum Cancer Centre (PMCC)	Working Group Member
Dr	Charlotte	Payne	Australia	New South Wales	General Practitioner	General Practitioner	Working Group Member
Dr	Ganapathy (Ganaps)	Perianayagam	Australia	New South Wales	Orthopaedic Tumour Fellow	Royal Prince Alfred Hospital (RPA)	Working Group Member
Dr	Claudia	Petrucchio	Australia	New South Wales	Clinical Research Associate	Franklin.ai	Working Group Member
A/Prof	Marianne	Phillips	Australia	Western Australia	Paediatric and Adolescent Medical Oncologist	Perth Children's Hospital (PCH)	Working Group Member

A/Prof	David	Pryor	Australia	Queensland	Radiation Oncologist	Princess Alexandra Hospital (PAH)	Working Group Member
Ms	Ashika	Ramamurthy	Australia	New South Wales	Junior medical officer	Concord Repatriation General Hospital	Working Group Member
Dr	Sanjana	Rangi	Australia	Queensland	Medical Oncology Fellow	Queensland Children's Hospital (QCH)	Working Group Member
Dr	Richard	Smith	Australia	South Australia	Surgical Oncologist	Royal Adelaide Hospital (RAH)	Working Group Member
A/Prof	Peter	Steadman	Australia	Queensland	Orthopaedic Surgeon	Princess Alexandra Hospital (PAH)	Working Group Member
Dr	Abay	Sundaram	Australia	Western Australia	Orthopaedic Registrar	Sir Charles Gairdner Hospital (SCGH)	Working Group Member
Dr	Stephen	Thompson	Australia	New South Wales	Radiation Oncologist	Prince of Wales Hospital	Working Group Member
Ms	Julijana	Todorovic	Australia	Victoria	Consumer Representative	Consumer Representative	Working Group Member
Dr	Cristina	Vargas	Australia	New South Wales	Pathologist	Douglass Hanly Moir Pathology	Working Group Member
Ms	Jennifer	Vu	Australia	New South Wales	Medical Student	University of Sydney	Working Group Member
Dr	Iain	Ward	New Zealand	Christchurch	Radiation Oncologist	Canterbury District Health Board	Working Group Member
Dr	Stephanie	Webster	Australia	New South Wales	Junior medical officer	Wollongong hospital	Working Group Member
Dr	Mark	Winstanley	New Zealand	Auckland	Paediatric Medical Oncologist	Starship Hospital	Working Group Member
Dr	Betty	Zhang	Australia	New South Wales	Medical Oncology Sarcoma Fellow	Chris O'Brien Lifehouse	Working Group Member
Dr	Deborah	Zhou	Australia	New South Wales	Oncology Clinical Research Fellow	The University of Sydney/ St George Public Hospital	Working Group Member

Appendix 2. Conflict of Interest Register

Title	First Name	Last Name	Current employment and previous employment with continued financial interest	Appointments e.g. trusteeships, Boards, committees & tribunals	Membership of professional bodies, specialist societies, etc	Direct or indirect payment of a financial or other benefits from industry – provide specific details of payments or benefits in the past 12 months (incl date, company and reason for payment)	Other conflicts
