Conflict of interest – code of conduct

High standards

Australia and New Zealand Sarcoma Association Limited wishes to adopt a high standard of conduct to ensure all perceived, actual and potential conflicts of interest are disclosed. This will avoid not only real conflicts of interest affecting the responsible decision making of the Board but also avoid any perception of conflicts of interest in relation to the decision making.

What is a conflict of interest for this policy?

A conflict of interest exists where loyalties of Board members are divided. If a Board member's interests or other duties may affect his or her decision making or may be seen to possibly affect his or her decision making as a Board member of the company, or may be affected by a decision of the company, then this interest is covered in this code of conduct.

Conflicts of interest cover any real or sensible conflicts the Board members may have with other duties owed, such as being a Board member or trustee of another company or trust, and conflicts with a personal interest, such as the interests of an associate or relative. For example, offering the services to the company of a business the Board member or family member is involved in.

Board members representing a stakeholder group, e.g. users of the services of the company or trust, must ensure that they are acting in the interests of the purposes of the company and not just in the interests of the stakeholder group.

The conflicting interest may arise as a result of the Board member's employment, consultancy or personal interests, often, but not limited to, financial investment.

A Board member can have a potential conflict of interest if any decision they make as a Board member may provide an improper gain or benefit to themselves or an associate.

Board members perform their functions subject to many influences and loyalties but this conflict of interest code of conduct applies to those types of interests and duties which have the possibility or the perception that they could influence the Board members when making judgements relating to the company.

The issue normally arises only in relation to pecuniary interest but it does extend to all influences, loyalties, interest or duties which may affect or be seen as likely to affect the Board member in his or her decision making for the company.

What must a director do?

(a) Disclosure

- (1) Board members must disclose to the Board, through the Secretary their employment, their connection to any stakeholder group and other Board memberships, as well as any actual potential or perceived conflict of interest.

- (2) The company secretary will keep a list of disclosures to be provided to any Board member on request and to new Board members for their information.

- (4) Board members must ensure any change in circumstances relevant to the disclosure of interest is advised to the Chair, Secretary or all Board members at a Board meeting considering a matter that gives rise to or may give rise to that Board member having an actual, potential or perceived conflict of interest.
- (5) If the Board member wishes to keep the matter giving rise to the possible conflict confidential he or she may just advise Board members that he or she has a conflict with the matter under discussion and that the protocol will apply.

(b) Protocol

If there is a conflict of interest, or the Board members or Chair have decided there is sufficient potential for a perceived or actual material conflict to arise so as to apply the protocol, then the Board member:

- (1) will not receive the papers on the matter, but will be advised that certain papers have been excluded;
- (2) cannot be present (by phone or in person) when the matter is considered unless permitted by law and the other Board members resolve that the Board member in question can stay; and
- (3) cannot vote on the matter.

(c) Open discussion

- (1) When any matter is being discussed at Board level, any Board member may query another Board member as to whether they consider they have a possible conflict of interest with the matter under discussion.
- (2) This matter should then be discussed and considered by the Board and if the Board (other than the Board member who is being queried) considers that there may be a possibility of a perceived or actual material conflict of interest, then disclosure must be made and the protocol must apply.
- (3) If a Board member is uncertain as to whether he or she has or may have a perceived or actual material conflict of interest, he or she must disclose this at the Board meeting discussing the matter or with the Chair.

(d) Records

Any discussions, disclosures, resolutions and the application of the protocol relating to a conflict of interest should be recorded in the Board member's minutes.

(e) Confidentiality

- (1) Board members must remember that board papers and matters discussed at board meetings are confidential as each Board member

has a duty to maintain the confidentiality of information he or she learns by virtue of his or her position as Board member.

- (2) If there is a need or desire by a Board member to disclose or report on resolutions or matters discussed at board meetings, or information gained as a result of the being a Board member, to third parties, then the disclosure or reporting can only be made with the consent of the Board members at the meeting or by the Chair.

(f) Chair's role

- (1) The Chair will be available to discuss with any Board member the application of this procedure to particular circumstances and provide guidance as to whether he or she should be making a disclosure or whether the protocol should apply.
