

Global Modular Replacement System

One system, one vision, one solution

- Incorporates decades of experience with the Kinematic Rotating Hinge (KRH), Modular Replacement System (MRS) and Modular Rotating Hinge (MRH)
- Designed to help retain the quality of life for patients who require radical bone resection for proximal femur, distal femur, total femur and proximal tibia
- Offers various options of lengths, materials and fixation in stemmed configurations to help surgeons meet patients' needs

A surgeon must always rely on his or her own professional clinical judgment when deciding whether to use a particular product when treating a particular patient. Stryker does not dispense medical advice and recommends that surgeons be trained in the use of any particular product before using it in surgery.

The information presented is intended to demonstrate the breadth of Stryker's product offerings. A surgeon must always refer to the package insert, product label and/or instructions for use before using any of Stryker's products. Products may not be available in all markets because product availability is subject to the regulatory and/or medical practices in individual markets. Please contact your sales representative if you have questions about the availability of Stryker's products in your area.

Stryker Corporation or its divisions or other corporate affiliated entities own, use or have applied for the following trademarks or service marks: GMRS, Stryker. All other trademarks are trademarks of their respective owners or holders.
