Transforming lives for

70
years

Stanmore | Est. 1949

Since 1949, Stanmore has been transforming the lives of children and adults around the world. Our first custom-made implant was placed in a patient on July 30, 1949 and since then, more than 22,000 patient specific Stanmore implants have been created.¹

**Same products, even more possibilities.
Look to Stryker for the Stanmore family of products.**

1. Sales data on file

A surgeon must always rely on his or her own professional clinical judgment when deciding whether to use a particular product when treating a particular patient. Stryker does not dispense medical advice and recommends that surgeons be trained in the use of any particular product before using it in surgery.

The information presented is intended to demonstrate the breadth of Stryker's product offerings. A surgeon must always refer to the package insert, product label and/or instructions for use before using any of Stryker's products. The products depicted are CE marked according to the Medical Device Directive 93/42/EEC. Products may not be available in all markets because product availability is subject to the regulatory and/or medical practices in individual markets. Please contact your sales representative if you have questions about the availability of products in your area.

Stryker Corporation or its divisions or other corporate affiliated entities own, use or have applied for the following trademarks or service marks: Stryker. All other trademarks are trademarks of their respective owners or holders.
